DIRECTOR'S MESSAGE

Dear Team ,

As we embrace the month of February, I want to take this opportunity to express my sincere appreciation to our esteemed clients, trusted partners, and the dedicated team at SIS Certifications. Your unwavering commitment to quality and compliance continues to inspire us in our mission to provide world-class certification services and support businesses in achieving global excellence.

In today's fast-evolving business environment, ISO certifications have become more than just a regulatory requirement—they serve as a strategic asset that enhances business credibility, operational efficiency, and customer confidence. We take immense pride in seeing organizations implement ISO standards to improve quality, security, sustainability.
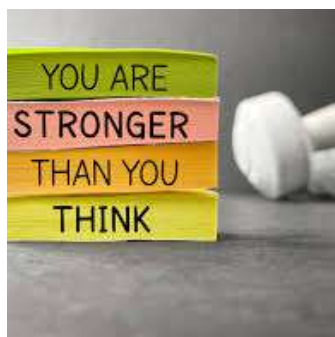

Dream big, work hard, stay focused, and surround yourself with good people.

These certifications not only help businesses meet industry benchmarks but also open new avenues for growth, global recognition, and competitive advantage.

At SIS Certifications, we remain committed to empowering businesses with internationally recognized management system certifications.

Whether it is ISO 9001 for quality management, ISO 14001 for environmental sustainability, ISO 27001 for information security, or other standards, our team ensures a seamless and structured certification process. Backed by accreditations from IAS, UAF, and IOAS, we continue to uphold the highest standards of credibility and excellence.

In today's competitive landscape, obtaining ISO certifications is not just about meeting regulatory requirements; it is a strategic decision that enhances credibility, efficiency, and customer satisfaction.

We are proud to witness numerous organizations successfully implementing ISO standards to drive quality, security, and sustainability in their operations. Achievements like these reaffirm the importance of structured management systems in fostering growth and long-term success.

Looking ahead, I encourage all businesses to embrace standardization, strengthen compliance frameworks, and cultivate a culture of continuous improvement. With the right approach, we can create a future where businesses thrive, customers trust, and industries set new benchmarks of excellence.

Wishing you a month filled with success, growth, and new opportunities!

SIS Certifications Pvt Ltd.

SIS Certifications Pvt Ltd.

GPEC Energy Product Guyana Inc. Achieves ISO 9001 Certification from SIS Certifications

SIS Certifications is proud to announce that they have awarded ISO 9001:2015 to GPEC Energy Product Guyana Inc. (GPEC), a leading provider of precision-engineered equipment. This globally recognized certification underscores GPEC's unwavering commitment to quality management and continuous improvement in delivering top-tier products and services.

ISO 9001 is the world's most recognized quality management system standard, setting the benchmark for organizations dedicated to customer satisfaction, operational efficiency, and consistent quality. By securing this certification, GPEC has demonstrated its ability to meet international standards, optimize business processes, and enhance customer confidence.

Strengthening Quality and Customer Satisfaction

GPEC has long been a trusted name in precision-engineered equipment, providing innovative and reliable solutions tailored to industry needs. With this certification, the company reaffirms its commitment to upholding the highest quality standards in all aspects of its operations.

"This certification is a significant milestone for GPEC," said MD at GPEC. "Achieving ISO 9001 reflects our dedication to continuous improvement, efficient processes, and delivering products that meet and exceed customer expectations. We are proud to work with SIS Certifications, whose expertise and rigorous assessment process have helped us strengthen our quality management framework."

The Role of SIS Certifications in GPEC's Success

SIS Certifications, a globally recognized certification body, conducted a thorough evaluation of GPEC's quality management system. Their meticulous auditing process ensured that GPEC complies with the latest ISO 9001:2015 standards, covering aspects such as risk-based thinking, leadership commitment, and customer focus.

"GPEC's achievement of ISO 9001 certification is a testament to their dedication to quality and operational excellence," said Mr Arunendra Dvivedi, Managing Director at SIS Certifications.

Benefits of ISO 9001 Certification for GPEC

ISO 9001 certification brings several key advantages to GPEC, including:

Enhanced Customer Confidence: Clients can trust that GPEC follows internationally recognized best practices to deliver high-quality products.

Operational Efficiency: Streamlined processes reduce waste, improve productivity, and ensure consistency in production.

Competitive Advantage: Certification strengthens GPEC's credibility, making it a preferred partner in the industry.

A Commitment to Future Growth

As GPEC moves forward, the company remains focused on leveraging its ISO 9001 certification to drive operational excellence, expand its market reach, and maintain customer trust. This milestone is not just a one-time achievement but a stepping stone for further advancements in quality management and business growth.

SIS Certifications Pvt Ltd.

State Bank of Mongolia: Proudly holding ISO/IEC 27001:2022 Certificate Issued by SIS Certifications

State Bank of Mongolia achieved a historic milestone by obtaining ISO/IEC 27001:2022 certification, that is the international standard for information security management systems. This prestigious certification was awarded by SIS Certifications Pvt. Ltd., a worldwide known certification body registered in India, in partnership with ABS Certification LLC, which is accredited by the National Accreditation Center under Mongolia's Deputy Prime Minister. This achievement represents a watershed moment in Mongolia's banking and financial institutions.

The State Bank's adoption of ISO/IEC 27001:2022 demonstrates its steadfast commitment to maintaining the confidentiality, integrity, and availability of its customers' information. By gratifying the stringent standards of this globally recognized standard, the bank demonstrates its commitment to lowering risks, developing a strong information security culture, complying with relevant regulations, and encouraging long-term sustainable development.

Pioneering Excellence in Information Security

During the certification event, Executive Director O. Gantor of the State Bank and Executive Director D. Altangerel, along with representatives from ABS Certification LLC, emphasized the importance of this achievement. "The State Bank is delighted to be Mongolia's first institution to achieve an internationally recognized ISO/IEC 27001 certification from a domestic corporation. "This achievement establishes a new benchmark in the banking industry," Gantor stated.

The State Bank's implementation of ISO/IEC 27001:2022 is not only an accomplishment, but also demonstrates its proactive attitude to improving operational stability and customer trust. The bank's leadership acknowledged that the certification provides strong safeguards for customer data, assures compliance with global and domestic standards, and reinforces the bank's position as a leader in secure banking operations.

A First in Mongolia's Banking Sector

This certification holds special significance as it is the first internationally recognized certificate issued in Mongolia. With the National Accreditation Center expanding its scope to include ISO/IEC 27001:2022 standards as of December 2024, this milestone serves as a catalyst for other institutions to prioritize information security.

By setting a precedent, the State Bank paves the way for increased adoption of international standards across various industries in Mongolia, reaffirming the country's commitment to global excellence.

Powered by Exemplar Global Training Programs

The certification journey was further strengthened by SIS Certifications extensive training programs, powered by Exemplar Global. These programs equipped the bank's team with the necessary skills to implement, manage, and continuously improve its information security framework. The training initiatives ensured that the State Bank could seamlessly integrate best practices into its operations, demonstrating its leadership in aligning with international norms.

SIS Certifications is accredited by both the International Accreditation Services (IAS-IAF) and the United Accreditation Foundation (UAF). .

SIS Certifications Pvt Ltd.

SIS Certifications Receives Letter of Appreciation from Empire of Engineering for ISO 9001:2015 Support

ISO 9001:2015 is an internationally recognized standard for Quality Management Systems (QMS) that helps organizations enhance efficiency, customer satisfaction, and overall business performance. It provides a structured framework for continuous improvement, ensuring that companies consistently meet customer and regulatory requirements.

One of the key benefits of ISO 9001 is improved operational efficiency. The standard promotes a process-oriented approach, helping organizations streamline workflows, minimize errors, and optimize resource utilization. By identifying and mitigating risks proactively, businesses can reduce waste, lower costs, and enhance productivity. This results in improved profitability and better decision-making. Customer satisfaction is another major advantage of ISO 9001. By implementing a strong quality management system, companies can consistently deliver high-quality products and services that meet or exceed customer expectations. This not only strengthens customer relationships but also boosts brand reputation and increases customer loyalty.

ISO 9001 certification also enhances market credibility and opens new business opportunities. Many clients and regulatory bodies prefer working with certified companies, giving them a competitive edge. It can also be a requirement for bidding on contracts, especially in government and international markets.
Moreover, ISO 9001 fosters a culture of continuous improvement within the organization. It encourages employee involvement and accountability, leading to a motivated workforce committed to achieving quality objectives. The standard also ensures compliance with legal and regulatory requirements, reducing the risk of penalties.
By adopting ISO 9001:2015, organizations can achieve sustainable growth, adapt to evolving market conditions, and build a strong foundation for long-term success.

Quality is never an accident; it is always the result of intelligent effort.

SIS Certifications Pvt Ltd.

SIS Certifications Honored with Letter of Appreciation from Galatcic Analytics Energy Limited for ISO 9001 Support.

ISO 9001:2015 is a globally recognized standard for Quality Management Systems (QMS) that helps organizations enhance efficiency, customer satisfaction, and overall business performance. By implementing ISO 9001, companies can establish a systematic approach to quality control, ensuring consistency, efficiency, and continual improvement in their processes.

- **Enhanced Operational Efficiency**
- ISO 9001:2015 helps organizations streamline processes, reduce inefficiencies, and eliminate waste. By optimizing workflows and standardizing procedures, businesses can improve productivity and achieve cost savings. The structured approach also enables organizations to identify and mitigate risks, ensuring smoother operations.

- **Improved Customer Satisfaction**
- A key principle of ISO 9001 is its focus on meeting customer requirements and enhancing satisfaction. By implementing a strong QMS, companies can ensure the consistent delivery of high-quality products and services, leading to greater customer trust and loyalty.

- **Stronger Market Reputation & Business Growth**
- ISO 9001 certification enhances an organization's credibility in the industry. Many clients, stakeholders, and regulatory bodies prefer to work with certified companies, giving them a competitive edge. It also opens new business opportunities, including eligibility for global tenders and contracts.

- **Compliance with Regulatory Requirements**
- The standard ensures that organizations comply with applicable legal and regulatory requirements. This reduces the risk of non-compliance penalties and improves the overall governance of the organization.

- **Culture of Continuous Improvement**
- ISO 9001 fosters a mindset of continuous improvement, encouraging employees to identify opportunities for enhancement. It creates a work environment where efficiency, accountability, and quality are prioritized.

Delivering quality means meeting customer expectations today while continuously improving for tomorrow.

Quality is the best business plan, and ISO 9001:2015 is the blueprint.

SIS Certifications Pvt Ltd.

SIS Certifications Expands Portfolio with BEMC Certification

We are excited to announce a significant milestone in our journey towards excellence—SIS Certifications has successfully added the Biomedical Equipment Maintenance Certification (BEMC) for Product Management to our already impressive portfolio of certifications. This achievement further strengthens our position as a leader in providing top-tier certification solutions and underscores our commitment to maintaining the highest standards across various industries.

The BEMC certification is a testament to our expertise in managing the maintenance and reliability of biomedical equipment, ensuring that healthcare organizations and manufacturers adhere to rigorous quality standards. This certification enables us to offer a comprehensive framework for ensuring that medical devices and equipment are safely maintained, operational, and compliant with industry regulations.

This accomplishment would not have been possible without the dedication, hard work, and collaborative efforts of our entire team. Every individual involved played a crucial role in achieving this certification, and we extend our heartfelt congratulations to everyone for their contributions. Their unwavering commitment to excellence and continuous improvement reflects the values that SIS Certifications upholds.

We look forward to leveraging this new certification to offer enhanced services to our clients and contribute to the overall safety and efficiency of the biomedical sector. Thank you to everyone for your hard work, dedication, and ongoing support!

SIS Certifications Pvt Ltd.

ISO/IEC 42001:2023 – AI MANAGEMENT SYSTEM STANDARD

ISO/IEC 42001:2023 is the first international standard specifically designed for Artificial Intelligence (AI) Management Systems (AIMS). It provides organizations with a structured framework to develop, deploy, monitor, and continuously improve AI systems while ensuring compliance with ethical principles, legal regulations, and risk management strategies.

This standard applies to organizations of all sizes and sectors that design, develop, implement, or use AI-based systems, ensuring that AI technologies are responsible, transparent, and trustworthy.

Benefits of ISO/IEC 42001:2023

- **Trust & Transparency** – Builds confidence in AI systems by ensuring ethical and explainable AI practices.

- **Regulatory Readiness** – Helps businesses comply with evolving AI laws and global standards.

- **Bias & Risk Reduction** – Minimizes risks related to biased AI decisions and unintended system failures.

- **Improved AI Performance** – Ensures AI operates effectively, delivering reliable and accurate results.

- **Competitive Advantage** – Positions organizations as responsible AI adopters, increasing credibility and market reputation.

- **Standardized AI Development** – Creates a consistent approach to AI system design, deployment, and monitoring.

Innovation thrives when AI is developed responsibly. ISO 42001 is the key to sustainable AI growth.

Key Elements of ISO/IEC 42001:2023 Standard

ISO/IEC 42001:2023 provides a structured framework for organizations to manage Artificial Intelligence (AI) systems responsibly, ensuring compliance, transparency, and ethical use. Here are the key elements of the standard:

1. AI Governance & Accountability
- Establishes roles and responsibilities for AI system management within an organization.
- Defines AI policies and objectives aligned with business and ethical goals.

2. Risk Management for AI
- Identifies, assesses, and mitigates risks related to AI bias, security vulnerabilities, and ethical concerns.
- Implements a structured risk management framework to handle AI-specific threats.

3. Compliance with Legal & Regulatory Requirements
- Aligns AI systems with global regulations and ethical frameworks (e.g., EU AI Act, GDPR, IEEE AI Ethics).
- Ensures AI solutions adhere to privacy, security, and data protection laws.

ISO/IEC 42001:2023 – AI MANAGEMENT SYSTEM STANDARD

4. Data Privacy, Security & Bias Mitigation
- Implements secure data management practices for AI training and deployment.
- Reduces bias and discrimination risks in AI models.

5. Transparency & Explainability in AI
- Requires organizations to document and justify AI-driven decision-making processes.
- Encourages the development of interpretable AI models to enhance stakeholder trust.

6. AI Performance Monitoring & Continual Improvement
- Establishes mechanisms for ongoing evaluation and refinement of AI models.
- Encourages adaptive learning and continuous AI system enhancement

Objectives of ISO/IEC 42001:2023

The main goal of ISO/IEC 42001 is to establish a structured AI governance system that helps organizations:

- Ensure AI is used ethically and responsibly.
- Mitigate risks related to bias, security, and unintended consequences.
- Comply with global AI regulations and legal requirements.
- Enhance the transparency and trustworthiness of AI applications.
- Promote continuous monitoring and improvement of AI systems.

AI should solve problems, not create them—ISO/IEC 42001 ensures responsible risk management.

- **Who Should Implement ISO/IEC 42001:2023?**

- ISO/IEC 42001 is beneficial for organizations that:
- Develop or deploy AI-powered applications.
- Use AI for decision-making, automation, or analytics.
- Want to ensure AI compliance with laws and ethical principles.
- Aim to build customer trust in AI-driven solutions.
- Operate in sectors with high AI risks (healthcare, finance, defense, etc.).

Conclusion

ISO/IEC 42001:2023 is a groundbreaking AI governance standard that ensures organizations manage AI systems ethically, transparently, and securely. It provides a structured framework for responsible AI deployment, mitigating risks and ensuring compliance with global regulations.
By adopting ISO/IEC 42001, businesses can enhance AI reliability, protect stakeholders, and maintain a competitive edge in the evolving AI landscape.
